Computer And Appliance Recycling

OCTOBER 24th
10 AM – 2 PM

Findlay Township began its Computer and Appliance recycling program with JVS Environmental in 2008. Since that time, we have seen quite a few changes in our computer and appliance recycling – from when we only had 40 residents interested in recycling, to when we had to pay \$1 per screen inch to turn in a television, to our latest event where we collected over 18,000 pounds of equipment from over 200 residents... enough to fill 3 trucks! Each recycling event we have held since 2008, we have continued to increase the amount of computers, televisions and appliances that are being recycled and keeping them out of the landfill. However, new State regulations have made recycling difficult on the companies and agencies that do all this recycling work. You may have read that Goodwill is no longer accepting televisions. This is because the manufacturers of electronics are supposed to pay to have their equipment recycled, but the manufacturers pay by the weight of equipment from the sales in the two previous years – forgetting that one old television weighs more than six new ones! What this means is the recycling companies are either no longer accepting televisions because they can't afford to recycle all of them or they have a backlog stored up until the manufacturers start paying more to recycle their old equipment. Since Findlay Township has worked with JVS Environmental for years, JVS has agreed to accept all of our computers, monitors, printers, scanners, laptops, non-Freon appliances (microwaves, washer, dryers, etc.), lead acid automobile batteries, cell phones, telephones, keyboards, mice, and radio equipment for free. ***Televisions will be accepted at this event for free – one per vehicle only.*** Going forward, JVS may have to start charging a fee again for television recycling, so if you have an old television that you're thinking of getting rid of...now is the time! Our next "Computer and Appliance Recycling Day" will be held on **Saturday, October 24th from 10 a.m. to 2 p.m.** at the Municipal Building, 1271 Route 30. Additionally, appliances with Freon will be accepted, including dehumidifiers, for a \$15 fee. Disposable batteries are now being made by the manufacturers to be disposed of in the trash and safe for the landfills; however, if you still wish to recycle those batteries, JVS will accept and recycle them for a \$4 per pound fee. Please note, recycling items will only be accepted during the hours of the event. For more information or if you have questions, contact Cynde at 724-695-0500.

Pickle-Ball Is Here In Findlay Township

We are very excited to announce that Findlay Township has 2 Pickle-Ball Courts at the Recreation and Sports Complex at Leopold Lake located on Route 30. The courts are located on one of the basketball courts next to the Skatepark on the first level of the complex. If you are not familiar to the game, it is a cross between badminton, tennis and ping pong. The nets are lower (36") and it is played with paddles and a wiffle ball. The lower net, ball weight and the fact that the balls have to bounce before volleying, make it more accessible to people of all ages and abilities, while still being competitive. In August, we held clinics to familiarize people with the game and the rules. We currently have groups playing on Monday and Tuesday evenings at 7 PM. If you are interested, join in on one of those evenings. Rackets and balls are available to use on a limited basis at the Parks and Recreation office. (Please call ahead to reserve) We ask for a \$20 deposit that you will get back once you have returned equipment. If you are interested in knowing more about Pickleball, please call Darlene at the township office.

"Friends Of Rainbow's End" Group Has Vacancies

Friends of Rainbow's End is a 501(c)3 group that
was formed in 2010 to help maintain the Memorial
Playground in Clinton Park. It was built as a me-
morial to twins, Robert and Emily Spik who were
township residents. The group is responsible to raise
funds through donations or other means to wash,
seal and mulch the playground. One work day is
scheduled every 3 or 4 years to help with the sealing
and mulching. Volunteers from various organiza-
tions also help to get the job done. Meetings are held
3 or 4 times a year, so it is not a huge time consum-
ing commitment. If your children played or still play
